

The response reproduced below was submitted to the consultation held by the Nuffield Council on Bioethics on the ethics of research involving animals during October-December 2003. The views expressed are solely those of the respondent(s) and not those of the Council.

Andrew Patrick Kirk, UK

Vivisectors (a pseudo 'scientific' name for animal 'researchers') are undoubtedly irrational imbeciles, as is any fool that condones, sanctions, licences, and executes this vile, sordid, abominable holocaust, perpetrated at their concentration and extermination camps.

Despite that, in a (no doubt futile) endeavour to enlighten those with severe learning difficulties, I enclose some literary assistance (taken from the Collins English Dictionary). I do hope and trust (you, who like those other self-serving, self-promotional syndicated fraudsters the Politicians who palms you grease, whose pockets you line and whose party political coffers you fill, whose relationship to you can best be described as a dummy to a ventriloquist) are literate?

You may experience some difficulties with the word torture, so I quote you this from the world renowned (vegan) cardio-thoracic surgeon, Moneim A. FADALLI's book ANIMAL EXPERIMENTATION: HARVEST OF SHAME. - "Torture is useless because it makes people confess to crimes they never committed. Vivisection is equally useless because animals have nothing to confess too. However, it does serve to confess human stupidity". - The former vivisector - Prof. Pietro CROCE, wholeheartedly concurs. And this from Prof. H J BIGELOW (Harvard University Medical School). "It - vivisection - can be indiscriminately pursued only by torturing animals: - and people with animal 'researched' ('safety' tested') drugs - and the word torture is intentionally used to convey the idea of very severe pain - sometimes the severest conceivable pain, of an indefinite duration."

Hoping this is of assistance to those (Satan's Slaves and other god fearing fools) amongst you who are undoubtedly a monumental disgrace to human'kind'.

A P KIRK

-----  
-----

ABERRANT: P2

- Ø Deviating from the normal or usual type
- Ø Behaving in an abnormal or untypical way
- Ø To wander away

ABBERATION:

- Ø Deviating from what is normal or expected, or usual
