

This response was submitted to the consultation held by the Nuffield Council on Bioethics on Give and take? Human bodies in medicine and research between April 2010 and July 2010. The views expressed are solely those of the respondent(s) and not those of the Council.

Stephen Wilkinson, Professor of Bioethics, Keele University

RESPONSE

Rather than answering the consultation questions (some of which require rather complex answers) I would like to draw your attention to the following publications. These are listed in reverse chronological order. I hope that you find these of some use.

Best wishes,
